PURZON060B® – Active substance information

HEXIS SAS® products are very widely used on a great variety of materials.

As responsible specialists for antimicrobial finishing with a broad spectrum of applications, we attach great importance to the safety of all HEXIS S.A.S® products for man and environment.

The HEXIS S.A.S® Product PURZON060B® contains the biocide active substance “silver phosphate glass” (CAS No 308069-39-8).

We herewith confirm that PURZON060B® contains only an active substance compliance with the Art.95 list of the BPR (Regulation (EU) Nr. 528/2012).

This information is based on our knowledge of this product at the time of publication. It is the responsibility of the user to assess his final product and to ensure the compliance with according regulations.
